## BOARD OF HEALTH MEETING.

Continued from Second Page.

passenger conveyances kept decently clean. It would be a safe measure anyway, and prevention is in every way better than cure.

A third point is the dense growth of trees and shrubs in our city. Honolulu is beautiful and we are proud of that beauty—but it is safe to have so much heavy growth as to exclude fresh air and sunlight? Some of our streets are narrow and when the trees are heavy they overhang the road in places making them damp, even muddy, when more open places have become dry after rain, and these heavily shaded places emit a musty unwholesome odor, very readily noticed by passers by—causing them to wonder how dwellers in the vicinity can endure it. Some of us remember the epidemic of typhoid malarial which passed over Honolulu eighteen years ago, at which time the Board of Health, supported by the advice of the physicians of the city, ordered a vigorous trimming of the trees in the streets and gardens. Nobody objected then, for it was a time of trouble, and people saw the wisdom of the measure, nor was the beauty of the place impaired. Since then some have forgotten, if they ever knew, that trial, and the trees and shrubs are thicker than ever. It is common for people to trust to the purifying influence of the "trade winds," but may it not be possible to overburden the trade winds? Certainly malaria is far more common in Honolulu than it was fifteen or twenty years ago.

In presenting these considerations to your honorable body we beg you to believe that it is not done in the spirit of fault finding. We realize that you are busy men who for the most part give your valuable time to a work too often unappreciated. We have no wish to hinder you or to add to your burdens, but we would be glad to be helpful. Some of us are in the way of seeing things which do not often come to your notice. So we lay these matters before you with a hope of being helpers in a matter which is of vital importance to all dwellers in this fair city.

We are, Gentlemen,  
Very respectfully yours,  
ELIZABETH V. C. HALL,  
MARTHA A. CHAMBERLAIN,  
Committee.

Referred to Sanitary Committee.  
A letter from John Emmeluth complaining of the condition of Kewalo was read. He stated that the heavy rains had washed down so much trash and filth that it was almost impossible to live there.

Mr. Reynolds said water in Kewalo was within two feet of the surface.

Mr. Wood said that Kewalo was not a fit place to live in.

Mr. Smith suggested a cattle pen at Waikolu, Molokai. Deferred.

Adjourned.

### If You Wish to Be Well

You must fortify your system against the attacks of disease. Your blood must be kept pure, your stomach and digestive organs in order, your appetite good. Hood's Sarsaparilla is the medicine to build you up, purify and enrich your blood and give you strength. It creates an appetite and gives digestive power. Hood's Pills are the favorite family cathartic, easy to operate.

### Possible, but Not Probable.

The latest phase of the possibility of an embargo between the United States and Spain over Cuba is the possibility of Germany taking up the cause of Spain. A plausible pretext for Germany to side with Spain might lie in the fact that she might wish to capture the entire supply of the celebrated Rainier beer. Telephone 783.

### Pianos.

All styles of Kroege pianos for sale, for cash or on the installment plan. Old instruments exchanged for new ones. Pianos rented, tuned and repaired. Telephone 321. J. W. BERGSTROM, Masonic Temple.
